Albany, N. Y., Oct. 15.—Superintendent Cornelius V. Collins will send a request to Secretary of State Hay to designate an official representative of the government to be present at the electrocution of Leon F. Czolgosz, the murderer of President McKinley. Only 26 witnesses will be present in the chamber of death when the sentence is executed. It was stated at the state department of prisons that statements to the effect that Czolgosz is in a continuous state of collapse and that he breaks down and weeps every time anything is said to him concerning the electrocution are false. Superintendent Collins had a talk with the condemned man some days ago and at that time he said he knew that he had to die. He expressed no fear as to the electrocution, but said that he would not care to go outside of the prison, for he believed that the people would kill him.

Since his confinement in Auburn prison several thousand letters have been received for him at the prison, as well as a large number of express packages containing flowers and fruit. The letters, flowers and fruit have never reached the condemned man. The flowers and fruit, it is learned, have been sent by Christian societies, as have a number of letters consoling him in his last moments. Other letters have come from cranks, who have written about the species of torture to which they would put him if they had the execution of justice in his case.

It is stated, however, that it would be a matter of surprise if the names of senders of fruit and flowers were made public.

Governor General Wood Promulgates the Election Law.

Havana, Oct. 15.—Governor General Wood has promulgated the election law. Several changes have been made in the draft that was adopted by the constitutional convention. The provision making it necessary for unincorporated Spaniards to secure from the secretary of state a document showing themselves eligible to vote has been stricken out, as it was considered in conflict with article 9 of the treaty of Paris as well as a discrimination against Spaniards desiring to become citizens. Now such Spaniards will register just as native born Cubans.

Instead of the constitutional convention taking charge of the elections a central board of scrutiny will receive and transmit to the governor general full reports as to all matters pertaining to the elections.

Upon receipt of the complete returns Feb. 24 the governor general will announce the date for the assembling of the Cuban congress, the proclamation of the president and the vice president and the formal transfer of the government of the island to the

GOVERNMENT CONCLUDES PRE-
SENTING EVIDENCE TO THE
NAVAL COURT.

THE CUBAN PILOT CALLED

Eduardo Nunez the Commodore's First
Witness—Captain Cook, Comman-
der of the Brooklyn During the San-
tiago Campaign, on the Stand the
Greater Part of the Day—Respon-
sible for the Famous Loop.

Washington, Oct. 15.—In the Schley court of inquiry Judge Advocate Lemly concluded presentation of testimony for the government and the first of Admiral Schley's witnesses was introduced. Captain Francis A. Cook, who commanded Admiral (then Commodore) Schley's flagship, the Brooklyn during the Santiago campaign, and who acted, though unofficially, in the capacity of chief of staff for the commodore, was on the witness stand the greater part of the day. He was followed by Lieutenant Commander William F. Fullam, who was senior watch officer on the New Orleans during the Spanish war, and Former Lieutenant Joseph Beale, who as an officer on the Harvard, translated the cipher dispatches between Commodore Schley and the navy department carried by that vessel. Among these dispatches was that sent by Commodore Schley May 28 expressing his regret at not having been able to obey the orders of the department and explaining the reason why he could not do so. There are some verbal discrepancies between the original draft of this dispatch and the official print of it, and these Mr. Beale explained.

Lieutenant Beale was the last of the government witnesses, although Captain Lemly explained that he would reserve the right to call others if occasion should demand that he do so. He had no sooner retired than the

First Witness for Admiral Schley
was called. This proved to be the Cuban pilot, Eduardo Nunez, who told Schley on May 26, 1898, that he did not believe the Spanish fleet under Cervera was in the harbor at Santiago.

Captain Cook's testimony was a review of the entire campaign after Cervera's fleet, beginning with the departure of the flying squadron from Key West on May 19 and concluding with the battle off Santiago July 3. He said that at first it had been believed by both Sampson and Schley that the Spanish fleet was in the harbor at Cienfuegos and that no information to the contrary had been conveyed to Commodore Schley until the arrival of Captain McCalla on May 24; that it was Commodore Schley's expectation to meet the Spaniards in the open sea and his constant care was to have coal enough for such emergency. He gave particulars concerning the retrograde movement and explained the Brooklyn's loop in connection with a graphic account of the engagement of July 3. Asked for an opinion as to Admiral Schley's bearing as a commanding officer he said: "I always regarded him as an enthusiastically brave and patriotic officer."

Captain Cook Testifies.

Captain Cook was the first witness. He said he was at Key West on May 19. His first impression was that they knew the Spanish fleet had left the Canary islands and had been sighted at Martinique. The flying squadron had been sent to Cienfuegos to intercept and meet the Spanish squadron. It having been determined, as was believed at that time, by them to make Cienfuegos their objective point. He had understood that the Spanish fleet carried munitions of war for Havana and it was believed, that they would go to Cienfuegos because of its accessibility to Havana.

On arriving at Cienfuegos on May 22 a blockade was immediately established. This was continued until the arrival of Captain McCalla. They had seen signal lights, but had supposed them to be for the Spaniards. When McCalla heard of it he said they were made by the insurgents and immediately went ashore and interviewed them. Almost coincident with this word was received from Jamaica that the Spanish fleet had gone into Santiago and had left on the 19th. The insurgents informed McCalla that the fleet was not at Cienfuegos and so the squadron started for Santiago. The commodore expected an open sea fight then and was very anxious about the coal supply. He always had been persistent in keeping the ships full of coal.

The Retrograde Movement.

Captain Cook related in some detail the occurrences of May 26, 27 and 28, including the retrograde movement from a position south of Santiago toward Key West and the return of the fleet to the vicinity of Santiago on the evening of May 28. This period also covered the meeting with the Harvard and the scout boats St. Paul, Minneapolis and Yale. Referring to the retrograde movement Captain Cook said he had not been consulted with reference to it, and speaking of the visit on board the Brooklyn of Captain Sigbee of the St. Paul he said that that officer had brought the Cuban pilot, Nunez, aboard, in reply to an

inquiry from Commodore Schley as to whether he had information concerning the Spaniards Nunez had replied that he had been up near the entrance of Santiago harbor and had seen nothing of the Spanish fleet. The movement toward Key West was delayed by the attempt to take the disabled collier Merrimac in tow and the weather moderated so they could coal at sea. This was on the 27th. "From the 24th to the 26th it was impracticable to coal, as the weather was bad."

The circular blockade was not adopted at Santiago as the idea was to get the Spaniards to come out and have the ships ready for action.

The Battle of Santiago.

Captain Cook said he was in his cabin when the Spaniards came out of the harbor of Santiago on the morning of July 3. He heard the order to clear ship for action. When he arrived on the forecabin two of the Spanish ships were in sight and the others appeared immediately afterwards.

Regarding the famous loop Captain Cook said the ships were all heading straight in towards the harbor. He himself gave the order "Hard a-port" to bring the Brooklyn around to parallel the course of the Spanish ships and not interfere with the other ships of the American fleet. The flag-ship passed about 400 yards from the Texas. A collision was never thought of. A complete and very quick turn was made and the Brooklyn had the Vizcaya on the starboard bow and the Oquendo abeam. The witness said he gave the order to put the helm a-port on his own responsibility. Regarding the conduct of Commodore Schley on this and similar occasions Captain Cook said: "I always regarded him as an enthusiastically brave and patriotic officer. Never in any other way."

Every Reason to Bless Her.

The witness did not see the Texas back her engines. He heard none of the conversation between the commodore and Lieutenant Hodgson. Captain Cook, being asked if he used language which could be understood to mean "Damn the Texas," replied: "Me? Oh, no; I had every reason to bless her, not damn her."

"How was the turn of the Brooklyn written in the log?"
"So far as I know, with port helm. I never observed the erasure, which I suppose you are coming to, until it was shown to me here in Washington, and I did not understand it then. I could not recall anything in connection with it."

The court asked the witness what reason Commodore Schley gave for his belief that Cervera's squadron was at Cienfuegos.

"In the first place, upon leaving Key West, he was quite enthusiastic at having been given the command of the south side of Cuba, and he said he expected to catch that fleet; that both he and Commander-in-Chief Sampson believed Cienfuegos was the objective point. I think I have already stated that he believed he would find them there. On Saturday night he had heard, or some officers had reported to him, what

Sounded Like a Salute

in the afternoon. I have never known what that was. Certainly something of the kind occurred, and he said it sounded as if they were having some kind of jubilee. When we arrived at Cienfuegos there were the signal lights that misled us all. We thought they had something to do with the Spanish squadron either coming or being there. And, again, the arrival of the Adula and her strange action. I believed at that time they were there, and I thought this was a ruse to get some communication to them. That is all I can recollect."

"Had any vessel taken coal at Cienfuegos prior to the time when Commodore Schley discussed the supply of coal with Commander McCalla?"

"I do not know. I think not."

"At what distance from the entrance to Cienfuegos did the large ships lie while blockading both by day and by night?"

"From four to six miles. I should judge. Closer at night."

"Was the Brooklyn using full power during the fight of July 3?"

"No. We did not have full power until the end of the action, until just about when the Colon went ashore."

"Why not?"

"The order required us to keep steam for moving eight or nine knots. I think, with some of the engines uncoupled. We used the after engines. In the early part of the action we had steam enough to make 12 knots, and we kept on increasing the steam until we

Had All the Steam We Could Use

with the two engines. We continued to get steam with the idea that if the Colon should go beyond the point we would lose time in coupling up all the engines. It would have taken 25 minutes to couple up. We had all the steam we could use in the after engines."

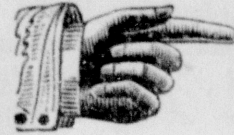

Admiral Dewey: "The witness has spoken of the order requiring them to keep steam up for moving with some of the engines uncoupled. Was that order by Commodore Schley?"

"It was the order of the commander-in-chief while lying on blockade."

"How far were the vessels of the flying squadron off the entrance of the port of Santiago while on blockade, first by day and secondly by night?"

"The blockade was closer and closer all the time. The first night I should say that it was between five and six miles off and about seven miles off at day. They steamed in a circle from five to six miles from the entrance and from four to five miles each side so as to cover the entrance."

Lieutenant Commander Fullam, senior watch officer of the New Orleans described the engagement of

tion of Commodore Schley.

On cross examination the witness also said that prior to going ashore June 1 he had not seen the Colon. He had not seen that vessel, indeed, until July 3. He said that his reason for thinking the vessels could not get into the harbor at Santiago was that such large vessels as those of the Spanish fleet had never before been seen there; he thought the harbor both too narrow and too shallow. He had expressed the opinion that unless they had "double machinery" (twin screws) they could not get in without the assistance of tugs. Nunez was then excused and the judge advocate was about to call Commander Mason when Admiral Dewey suggested that it was then time for the court to adjourn. Accordingly the court adjourned for the day.

MOST GOES TO PRISON.

Given One Year for Publishing a Seditious Article.

New York, Oct. 15.—Johann Most, the anarchist, was sentenced to one year in the penitentiary in the court of special sessions, for publishing in his newspaper, The Freiheit, an alleged seditious article on the day following the shooting of the late President McKinley. The article in question was entitled "Murder Against Murder." In his defense Most claimed that the paper containing the article was printed and ready for distribution before the president was shot. Also that it was a quotation from an article published 50 years ago and republished by him 15 years ago. After imposing the sentence Justice Hinsdale read the opinion of the court, in which he said:

"It is no answer to the evil and criminal nature of this article to claim that it was written for the purpose of destroying crowned heads. It inculcates and reinforces the idea that murder is the proper remedy to be applied against rulers. The fact that it was published 50 years ago and republished about 15 years ago only emphasizes and gives added point to the criminality of republishing it at any time. It shows deliberate intent to inculcate and promulgate the doctrines of the article. This we hold to be a criminal act. It is not necessary to trace any connection in this article with the assassination of the late president. The offense here, in the eyes of the law, is precisely the same as if the bloody event had never occurred. The murder of the president only serves to illustrate and illuminate the enormity of the crime of the defendant in teaching his diabolical doctrine."

ON THE DEFENSIVE.

Venezuelan Government Opposed to Attacking Colombia.

La Guayra, Venezuela, Oct. 15.—On the best authority the Associated Press correspondent is enabled to reiterate the statement that the government of Venezuela is still opposed to an attack upon Colombia, preferring to remain upon the defensive and to maintain the status quo. Venezuela wants peace, but peace on terms that would conserve the dignity and honor of the country.

Direct or indirect peace proposals from Colombia—which Venezuela, notwithstanding the occurrences of last month on the Guajira peninsula, insists upon considering the sole aggressor—would be welcomed by the Caracas cabinet. The feeling is growing in Caracas, especially in official circles, that the mediation of a third party will eventually be required and that the United States government is logically the best qualified to act.

Venezuela will probably be able to maintain her present armed footing on the frontier for six or eight months ere the finances of the country will require the issuance of paper money or an appeal for forced loans.

THE ladies have been barred from the C. A. Towne farewell banquet at Duluth, Wednesday night, and they want to know why.

It kept Mayor Ames' entire police busy Saturday night in Minneapolis to protect the property and the people from the foot ball enthusiasts.

THE foot ball season has had a very brilliant and successful opening, two men having been killed, one sustaining a broken neck and the other receiving a fatal bunt in the abdomen.

THE Fargo Call objects to sending all anarchists in this country to the leper island because it ignores the rights of the lepers. The fact seems to have been forgotten that they might object.

PAT CROWE agrees to surrender to the authorities if Edward Cudahy will withdraw the reward of \$50,000. It ought not take long to adjust the matter and if Cudahy insists on paying the reward to someone it might be turned over to Crowe for having discovered himself.

THE sentencing of Anarchist Most, of New York, to one year in the penitentiary for his seditious utterances on the day following the shooting of President McKinley will undoubtedly have a wholesome effect on his followers. There are others of the same stripe who should be looking out between prison bars.

It is understood that Rev. M. L. Hutton and John Cochran had a narrow escape from drowning near the dam last night while fishing. They had gone out in a boat and somehow drifted into the whirlpool. The boat capsized and both gentlemen were thrown headlong in the water. Fortunately they were able to reach shore by clinging to and crawling over logs, but realized that it was a pretty close call. In the melee they both lost their coats, fishing tackle and the boat.

DENIES THE ALLEGATIONS.

W. A. Coffin, the Deerwood Constable, Will Have His Trial at Red Wing In a Few Days.

O. C. Coffin, of Deerwood, returned this morning from Red Wing, where he went to make arrangements for an attorney for his brother, W. A. Coffin, who was arrested sometime ago on complaint of Superintendent Brown, of the training school at that place, charged with criminal assault on Maud Grant, whom, Mr. Coffin, as constable, was conducting to the training school.

Mr. O. C. Coffin stated this morning to a representative of THE DISPATCH that he thought they would have no difficulty to prove his brother's innocence in the matter. He says the facts surrounding the journey and the actions of his brother and the girl at the hotel were such as would convince a fair minded man that there was nothing wrong. They did not register as man and wife at all. William A. Coffin was assigned to room "5" and the girl registered in her own name and was assigned to room "8". A large number of witnesses will go from this city and Deerwood to attend the trial and testify as to the good reputation borne by the defendant in this action; and the fact that the girl was sent to the school is thought to be sufficient evidence that for truth and veracity she could not be depended upon. They stopped at the Hendel Hotel.

This same girl accused another young man at Deerwood, claiming, that he had ruined her, but on the preliminary hearing he was cleared and it looked as though it was a put up job.

RULE WILL BE ENFORCED.

Secretary H. M. Bracken, of the State Board of Health, Sends Out a Letter On Vaccination.

The following has been given out for publication by Secretary Bracken of the state board of health, which will be of interest:

Word has been published broadcast that Attorney General Douglas has furnished the state superintendent of public instruction an opinion to the effect that the order of the state board of health under date of August 12, 1901, requiring all school teachers and pupils to present a certificate of vaccination on or before October 15, 1901, could not be enforced. This is a mistake.

The attorney general did give an opinion in 1899 to the effect that compulsory vaccination of school children could not be enforced unless smallpox was present as an epidemic.

Under date of July 16th, 1901, an opinion was given from the attorney general's office, to the effect that smallpox was epidemic in the state of Minnesota at the present time and that therefore the state board of health had power to order a general vaccination of school children. It was upon this opinion that the state board of health, at a special meeting August 9th, based its order. It reasserted its position on this question by a vote at a regular meeting October 8th.

SOME SKI U MAHS LIVE UP NORTH.

Proposition To Go To Madison To Witness the Wisconsin--Minnesota Game.

UNIVERSITY MEN INTERESTED.

It Is Proposed That Special Coaches Be Secured For Men From the North.

There are a large number of University of Minnesota graduates in this city and usually anything pertaining to the university the boys digest with interest and the memory of their alma mater is always kept fresh by an occasional event of general interest.

Several of the alumnus in this city have about decided to do something toward getting up a good representation from this city, and in fact from Northern Minnesota to take in the foot ball game between the university of this state and the Wisconsin "U" at either Madison or Chicago on November 16.

It has not been decided at which place the game will be played. It is thought that the crowds will almost be too great to go to Madison and on the other hand the managers believe that there would be more in it if the game is played at Chicago.

In any event it is expected that no less than 7,000 people will go from the Twin cities and of course there will be large numbers from other towns and cities outside in the state.

Those who have attended the university at one time or another and who now live in the northern part of the state are trying to get up a special coach to leave Brainerd and be attached to one of the special trains leaving Minneapolis for the east. There are some prominent "U" men at Walker, Cass Lake, Bemidji and other towns along the Minnesota & International, and at Aitkin there are several. It is understood that Attorney Sweet, of Bemidji, is highly in favor of the proposed trip and that he will do all in his power to get all interested to attend from there. The same is true of Attorney Krelwitz, of Aitkin. Then it is thought that a good representation could be secured, south to Staples and along the Northern Pacific for quite a distance west.

There are several university men at Little Falls and St. Cloud and it is proposed that these men be asked to join the party from here. If it is possible the men would like to get two coaches but even with one coach Northern Minnesota could be fairly represented.

There are any number of Minnesota University men in this city including C. A. Allbright, P. J. Murphy, Dr. Batcheller, Dr. Thabes, Dr. Frederick, Franklin H. Polk and many others and anyone wishing to co-operate could write to anyone of these gentlemen.

SHOULD MIND OWN BUSINESS.

President Ankeny of State Normal Board Tells the St. Paul Globe Same In Plain Language

"The short of it is that the board of control will be asked to come into court and show cause why it should not mind its own business and leave us free to mind ours." Thus spoke President A. T. Ankeny, of the normal board yesterday in reference to the fight between the two boards, says the St. Paul Globe.

The matter has finally reached a stage where a settlement out of court is an impossibility, and while the normal board is at court it proposes to have the vital questions settled for all time.

President Ankeny, Supt. Olson and Assistant Attorney General Donahower were in consultation yesterday as to the method of court proceedings. The case will be delayed a short time as Attorney General Douglas is out of town and it is necessary to get his consent to quo warranto proceedings before the matter is taken to the supreme court.

With the exception of J. C. Norby, of Ada, the members of the normal board have written to Supt. Olson stating that they were in favor of starting proceedings in the courts at once. President Ankeny is also anxious to have the matter taken up as soon as possible, and it will be probably be taken before the supreme court some time next week.

WANTS HER SON PAROLED OUT.

Mrs. Plummer and Daughter Appeared Before the Pardon Board Yesterday.

SENTENCED FOR ROBBERY.

He Was Sent to Stillwater For A Term of Eight years In 1899.

Mrs. James W. Plummer and her daughter, Miss Susan Plummer, are in St. Paul where they have appeared before the pardon board on behalf of George A. Plummer, son and brother, who was sentenced to Stillwater for eight years for highway robbery, the crime having been committed in this city in 1899, the details of the affair being still fresh in the minds of many.

He and a young man by the name of Jacob Sylvester laid in wait for Andrew Olson, the merchant tailor, as he was going home one night from his work. They met him at the corner of Eighth and Holly streets north with a bag full of shot, and it is claimed they pounded him most unmercifully and it is further claimed that had it not been for the fact that the bag broke and the shot was spilled he would have been killed. They thought he had money at the time.

Before the pardon board yesterday George Plummer's sister asked that the sentence be commuted so that he could be released on parole.

The sister told what a good brother he was and how all the education she had, she owed to him.

HIS WOUNDS MAY YET PROVE FATAL.

Accidental Discharge of a Rifle May Yet Cost Al. Norton His Life

AMPUTATION IS NECESSARY.

Young Willie Willett May Lose A Hand As a Result Of Gun Shot.

This morning Drs. Camp and Thabes made an examination of the wound caused by the accidental discharge of a 30-30 rifle in the thigh of Alfred Norton, the man who was brought to the city yesterday from the Boy River country. It was ascertained that the bullet passed almost completely through the thigh from rear to front. The lead was removed but upon further investigation it was found that the bones in the thigh joint and through the pelvis were completely shattered, and to save his life an amputation would be necessary.

The doctors state that the amputation may save the man's life but they are rather doubtful that he will ever recover. His relatives in the east have been notified and it is expected that they will be heard from this afternoon and if it is satisfactory to them the operation will be performed at once.

Yesterday afternoon while playing with a 22-caliber rifle young Willie Willett, son of Mr. and Mrs. Edward H. Willett was accidentally shot in the left hand. The young man foolishly put his hand over the barrel of the gun and somehow it was discharged. The bullet passed into his hand in a glancing direction and Dr. Thabes was unable to locate it this morning. The young boy may lose a hand. He is at St. Joseph's hospital.

Judge Searle Has Instructed Deputy Clerk Boyer, of Wadena County, to Keep on Drilling.

Judge D. B. Searle has informed the authorities at Wadena that a doubt existed in his mind as to whether or not there was a vacancy in the office of clerk of court in that county. W. L. Northfoss, the clerk for some years, having been committed to the Fergus Falls asylum last week. The judge has instructed Deputy U. G. Boyer to go ahead and administer affairs of the office temporarily. If he finds on investigation that a vacancy exists he will appoint Theodore Northfoss, a son to the position. There will be no danger of complications as the deputy is now at work under instructions from the district court.

WATER RATES ARE REVISED.

An Expert Secures Information And Provisions of Charter Are Followed.

KICKS FROM THE CONSUMERS.

The New Rates Were Put In Force the First of The Month.

There has been all kinds of trouble in the office of Manager Smith, of the Minnesota Water Works Co., since he took hold, and the series of questions that he has been compelled to answer since the first of the month would fill a big book. He has had to do considerable explaining in view of the fact that a radical change has been made, beginning with October 1, the last quarter of the year, and when water rents fell due, in the rates charged for rental, and he has had to shoulder it all like a little man, many thinking that he is responsible for the tilt in the rentals in some cases, he having started in simultaneously to perform the duties of the office with the change in the water rates in the city.

As near as can be learned, with all due credit to the water company, they are doing nothing more than is given them a privilege to do under charter provision. When the rates were fixed in the city in the first place, it was on the representation of the renters themselves, and Manager Smith states that in almost two-thirds of the cases, the information obtained as to the number of rooms in a house, bath, closets, cattle and horses, has been incorrect. It seems that President Tighe realized the condition of things, and last summer he engaged an expert to come to the city to check the houses over.

As has been stated nearly two-thirds of the renters were not paying enough water rent under the provisions of the city charter. Some who had houses with seven or eight rooms in the first place, reported three or four, and in many cases where baths are used they were not reported at all.

Manager Smith is in no way to blame for the conditions. A copy of the checkup made by the expert in the employ of the company has been sent him and new books have been opened and from now on citizens will have to pay for water under the charter provision, and there seems no recourse.

The charter provides that for a house with four rooms or less the water rent is to be \$7 per annum, five rooms \$8 per annum; 6 rooms \$9 per annum and seven rooms \$10 per annum. Bath will be charged for at the rate of \$5 and closets at \$5. Horses or cows add another item to the expense. Manager Smith called attention to the fact that for baths the city charter provides \$7 per annum but President Tighe thought that \$5 would be sufficient.

On the other hand there are all kinds of kicks in the city. It has been claimed that the water rent in proportion to the service that is rendered is certainly exorbitant, and of course there are those who are up in arms but it is thought that the matter will settle down after the first quarter.

BASEMENT IS COMPLETED.

Good Reason for Their Discharge.

Master Mechanic S. L. Bean takes exception to some of the statements made in THE DISPATCH article yesterday concerning the assault on A. E. Gustafson at the shops on Saturday evening. Mr. Bean says it was not merely a harmless joke that was played on Gustafson, but that he had been subject to persecution for some time at the hands of the men who finally brutally assaulted him. That the men were discharged for this reason by himself, on the written recommendation of Foreman Loren Cooley, and not by General Foreman Lyddon as stated.

TEN LICENSES SO FAR.

Although the Deer Season Does not Open For Nearly a Month Many Licenses Are Taken Out.

County Auditor Mahlum has up to date issued ten resident licenses to gentlemen who will hunt deer this fall.

In some counties larger numbers have applied already, but there is nearly a month yet before the season opens and most of the hunters are not rushing matters at all.

LUMBER BUSINESS RUSHING.

Local Jobbers Rushing Men Into the Woods and Coming Months will Prove Lively.

This season's lumber cut promises to exceed that of last winter. Local jobbers are rushing men into the woods and on every hand there is an expectation that the coming months will prove lively. A scarcity of men is threatened, and this leaves the wage earner to consider the prospect as being unusually bright, when taken in connection with the contracts already entered into and published by employers, says the Journal.

The nearest camp to Cloquet will probably be that of Bert Munson, about twenty miles away. In St. Louis county on the east, Bolin & Wood have a heavy piece of cutting for the Scanlon-Gibson company, while to the west in Beltrami county, Blakely & Farley, also large operators will handle about 150,000,000 feet.

The Munson logs will go down the Mississippi, the Bolin & Wood cut will be handled at Cloquet, while the Blakeley-Farley output will undoubtedly be carried, in part at least, over the Minnesota & International to Brainerd, and perhaps from there through to Minneapolis over the Northern Pacific.

It is said that Minneapolis lumbermen have discovered that their stocks are unusually low this fall, and that it will be necessary to put in some additional timber in order to meet the demand. The activity in the finishing product during the summer months has been ahead of what was anticipated and there is threatened a lumber famine in consequence, granting that unfavorable weather conditions should interfere with what it is planned to accomplish in the pinerias.

Cedar operations look forward to a busy winter. At Deer river it is anticipated that more cedar will be cut for shipment than ever before. The demand for agricultural lands has been instrumental in maintaining prices of certain grades and kinds of cedar. Thousands of posts have been consigned this summer to western and southern prairie stretches where the plow overturned the sod for the first time.

A conference was held at Glenwood Thursday between the county commissioners, the village and township boards of health, and a representative of the state board of health. The purpose of the conference was to enlighten the local boards as to their legal rights, their duties and responsibilities. It is said that there are several cases of smallpox in the western part of the county. The local boards of health will now be able to act intelligently and decisively in smallpox cases, and it is thought that this will be an important factor in staying the spread of the disease.

United States Post Office Inspector Meyers Causes Arrest of Well Known Young Man at Duluth.

Herbert Craig, an employee of the Knudson-Ferguson Commission company, of Duluth, was arrested Saturday afternoon by United States Post-office Inspector W. T. Meyers, of St. Paul, on the charge of forging a post-office order of \$25. Craig was taken before United States Commissioner Pressnell and bound over to the next term of the federal grand jury.

The crime with which Craig is charged is alleged to have taken place in August, Mrs. J. E. Reynoldson, of Manton, Ohio, came to Duluth early in the month to seek relief from hay-fever. She made her home while in the city at the Delaware hotel. First avenue east and Second street. She was expecting money from her husband, but as the weeks went by and nothing came she made inquiry and discovered that a money order had been sent and that it had been cashed at the Duluth office by somebody.

Suspicion fell on a young man, a clerk at the hotel, and he was put to a great deal of trouble in the way of sweating processes. He maintained his innocence, however, and his friends stood by him, declaring that he had a reputation for honesty and was not the guilty party.

Inspector Meyers is said to have remained obdurate on the matter and insisted on the guilt of the clerk until a few days ago when he learned that Craig, who had been a guest at the hotel, left on the day the order was cashed, for Swan River. Inspector Meyers followed up this clue by a visit to the places Craig had stopped at, but learned nothing, and on his return again sought to make

the clerk confess. The latter was as obdurate as Mr. Meyers, however.

On Friday Inspector Meyers learned that Craig had returned and he was notified to appear at the post-office. Disclosures were made at the interview that are said to warrant the authorities in holding Craig as a forger.

A CLASH OF INTERESTS

GIGANTIC RAILROAD ROW IS SAID TO BE BREWING IN THE WEST.

WILL BE UNPRECEDENTED

The Hill-Morgan Interests Are Arrayed Against the Harriman-Vanderbilt Combination—It Is Said That the Roads Controlled by the Former Are Now Invading the Territory of the Latter.

Portland, Or., Oct. 15.—A special to The Evening Telegram from Astoria, Or., says: It is reported here that the Northern Pacific Railroad company recently offered A. B. Hammond \$3,500,000 for the Astoria and Columbia. The offer is said to have been declined.

Along with the story of the reputed offer comes a statement to the effect that the West will soon witness a clash of railroad interests the like of which has never been seen before. The contending hosts will be the Hill-Morgan interests and the Harriman-Vanderbilt combination. On the one side are said to be arrayed the Southern Pacific, the Union Pacific and the Oregon Railway and Navigation company, while on the other are the Northern Pacific, Great Northern and Chicago, Burlington and Quincy. It is said that the Northern Pacific is now building into Oregon Railway and Navigation's wheat territory in the Northwest, while the Burlington is building into Union Pacific territory, with an outlet at Los Angeles.

FEAR SERIOUS CRISIS.

Economic Conditions in Austria and Hungary Growing Worse.

London, Oct. 15.—In the course of a long description of the depression of trade in Austria and Hungary the Vienna correspondent of The Standard says: "There are fears of a serious economic crisis. The worst sign is the fact that the largest industrial undertakings in all branches have been compelled to resort to considerable reductions of establishments. The reasons given are the keen German competition and the withdrawal of credit owing to loss of confidence through the maladministration of large joint stock concerns."

"Dr. von Kober, the premier, promised the president of the Vienna chamber of commerce that orders would be placed for large public works and that all available means would be employed to assist the suffering industries."

CHALLENGED THE JURY.

Defense in the Goebel Trial Charges It With Political Bias.

Georgetown, Ky., Oct. 15.—After the jury was completed in the trial of ex-Secretary of State Caleb Powers as accessory to the murder of Governor Goebel the defense challenged the whole jury, charging it with political bias, and the officers of the court with packing the jury for the purpose of conviction. Both sides presented affidavits and arguments, after which Judge Cantrell overruled the motion of the defense to disqualify the jury and also a demurrer to the indictment to which the defense took exceptions. Witnesses were then sworn and a list of attorneys on both sides furnished the court. Prosecutor Franklin read the indictment against Powers and Colonel T. C. Campbell stated what the commonwealth expected to prove.

RUSSIA MAY APPEAL.

Result of the Sugar Bounty Decision at Baltimore.
Washington, Oct. 15.—It is not known here officially what action the Russian government will take now that the United States court at Baltimore has rendered a decision adverse to its contention in the sugar bounty case. It has been suggested that the Russian government will wait until the New York court has acted on a similar case in the hope that the Baltimore decision will be met by one favorable to the Russian side. In that case the importers feel that they would have a fair opportunity to win their case on an appeal to the supreme court, and it is expected that the Russian government will refrain from further retaliation against United States trade.

ANOTHER KIDNAPPING.

German Banker Carried Off by Bulgarian Brigands.

London, Oct. 15.—"It is announced from Bucharest," says a dispatch to The Daily Mail from Vienna, "that Herr Rosenthal, the representative of a German firm, has been kidnapped by Bulgarian brigands at Silistrina. The Roumanian government has sent a protest to Sofia and the Bulgarian government has ordered troops to pursue the brigands."

"It is rumored that the Macedonian committee has decided to capture every foreigner within reach in order to attract European attention to the bad state of public security in Macedonia."

Miss Stone Is Alive.

Washington, Oct. 15.—All that can be gained from the state department officials respecting the case of Miss Stone, the missionary who is held by brigands in Bulgaria, is that she is alive and that efforts are continuing for her release. The officials, while declining to indicate the nature of the measures they are pursuing to this end, still have hope of ultimate success.

Must Have Military Permits.

Cape Town, Oct. 15.—No passengers are allowed to sail from Cape ports without military permits. Four additional squadrons of colonial troops are enlisting for active service.

SMALLPOX AMONG INDIANS.

Reports From Reservations Received by Interior Department.

Washington, Oct. 15.—The smallpox epidemic prevailing among the Indian reservations now includes, according to the latest reports to the interior department, a total of 80 cases at Bad River reservation, Wis.; 5 new cases at the Southern Ute reservation, Colo., and the superintendent, teacher, cook and 7 pupils at the Kickapoo Indian boarding school in Kansas. In addition to this the agent for Arizona Indians reports that there are several smallpox cases among Mexicans at Phoenix in uncomfortable proximity to the Indians. The epidemic at the Bad River reservation originated in the sisters' school there and, with the exception of one woman, is confined to children.

HAVANA POSTOFFICE FRAUDS.

Indictments Have Been Sent by the Fiscal to the Audencia.

Havana, Oct. 15.—The indictments in the postoffice fraud cases have been sent by the fiscal to the audencia, but have not yet been made public. It is known, however, that the fiscal has asked that C. F. W. Neely, Estes G. Rathbone and W. H. Reeves, the indicted officials, be sentenced to imprisonment for terms ranging from 24 to 26 years. Each of the accused men is charged with from 15 to 18 offenses. The counsel for the defense have 20 days in which to file answers to the indictments.

Five Miners Fatally Burned.

Tunnelton, W. Va., Oct. 15.—By an explosion in a mine here 13 miners were burned, five probably fatally. The accident was caused by a miner loading a hole with too much powder, causing the dust from the electric machine to ignite and explode. The following are probably fatally burned: William H. Haney, Peter Spiker, Chester Bucklow, Ernest Cross and Frank Dodge. The eight other miners were painfully burned, but will recover.

Indian Agent Removed.

Washington, Oct. 15.—John W. Harding, agent for the Yankton, S. D., Indian reservation, has been removed to take effect on the arrival of a special agent who has been ordered to relieve him. The action is the result of a number of charges filed at the interior department alleging, among other things, violations of the department regulations. No permanent successor has yet been selected.

NORTHERNMOST POSTOFFICE.

Point Barrow to Receive Mails Once Each Year.

Washington, Oct. 15.—Postoffice Inspector John P. Clum has returned from a trip of inspection through Alaska. He has reported to the department that the service generally is in excellent condition, more particularly in the Yukon valley, where the various towns have a mail service of once a week in each direction. He established the northernmost postoffice in the United States and what probably is the northernmost postoffice in the world. This is at Point Barrow, where Rev. Dr. H. Richmond Marsh, the missionary at the little settlement, was appointed postmaster. This place, where the northernmost newspaper in the world is published once a year, will receive the mails once a year by a United States revenue cutter. Heretofore the few natives in the vicinity have had to send for their mail about 700 miles and often much further.

China Delivers the Bond.

Peking, Oct. 14.—The Chinese plenipotentiaries Sunday performed their last official act and forwarded to the Spanish minister, who is the doyen of the diplomatic corps, a bond for the indemnity of 450,000,000 taels.

California Via the "Sunshine Route."

If you contemplate a trip to California this fall or winter consult the Chicago, Milwaukee & St. Paul Ry.

Beginning Tuesday, Oct. 15th., and every Tuesday thereafter during the season, a high class Pullman tourist sleeping car will leave St. Paul and Minneapolis, running through to Los Angeles without change, arriving at Los Angeles, Saturday morning, four days.

The line is via the celebrated C. M. & St. P., "Hedrick Route" to Kansas City, thence over the A. T. & S. F., making the most popular and interesting route to the South Pacific Coast.

This service includes the "personally conducted" feature west of the Missouri River—a special conductor accompanies each car whose duty it is to carefully look after the wants of each individual passenger.

Write for the cheapest rates and for copy of the "Sunshine" folder, containing full particulars of this famous route.

"A HELPING HAND."

Is Gladly Extended by a Brainerd Citizen.

There are many enthusiastic citizens in Brainerd prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Moses Derocher, of 127 Seventh street south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort, to say the least. My husband bought me a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely, and corrected a disorder of the kidneys which accompanied the backache."

Price 50 cents a box by the McFadden Drug Co., H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no substitute.

The officials, while declining to indicate the nature of the measures they are pursuing to this end, still have hope of ultimate success.

Must Have Military Permits.

Cape Town, Oct. 15.—No passengers are allowed to sail from Cape ports without military permits. Four additional squadrons of colonial troops are enlisting for active service.

SMALLPOX AMONG INDIANS.

Reports From Reservations Received by Interior Department.

Washington, Oct. 15.—The smallpox epidemic prevailing among the Indian reservations now includes, according to the latest reports to the interior department, a total of 80 cases at Bad River reservation, Wis.; 5 new cases at the Southern Ute reservation, Colo., and the superintendent, teacher, cook and 7 pupils at the Kickapoo Indian boarding school in Kansas. In addition to this the agent for Arizona Indians reports that there are several smallpox cases among Mexicans at Phoenix in uncomfortable proximity to the Indians. The epidemic at the Bad River reservation originated in the sisters' school there and, with the exception of one woman, is confined to children.

HAVANA POSTOFFICE FRAUDS.

Indictments Have Been Sent by the Fiscal to the Audencia.

Havana, Oct. 15.—The indictments in the postoffice fraud cases have been sent by the fiscal to the audencia, but have not yet been made public. It is known, however, that the fiscal has asked that C. F. W. Neely, Estes G. Rathbone and W. H. Reeves, the indicted officials, be sentenced to imprisonment for terms ranging from 24 to 26 years. Each of the accused men is charged with from 15 to 18 offenses. The counsel for the defense have 20 days in which to file answers to the indictments.

Five Miners Fatally Burned.

Tunnelton, W. Va., Oct. 15.—By an explosion in a mine here 13 miners were burned, five probably fatally. The accident was caused by a miner loading a hole with too much powder, causing the dust from the electric machine to ignite and explode. The following are probably fatally burned: William H. Haney, Peter Spiker, Chester Bucklow, Ernest Cross and Frank Dodge. The eight other miners were painfully burned, but will recover.

Indian Agent Removed.

Washington, Oct. 15.—John W. Harding, agent for the Yankton, S. D., Indian reservation, has been removed to take effect on the arrival of a special agent who has been ordered to relieve him. The action is the result of a number of charges filed at the interior department alleging, among other things, violations of the department regulations. No permanent successor has yet been selected.

NORTHERNMOST POSTOFFICE.

Point Barrow to Receive Mails Once Each Year.

Washington, Oct. 15.—Postoffice Inspector John P. Clum has returned from a trip of inspection through Alaska. He has reported to the department that the service generally is in excellent condition, more particularly in the Yukon valley, where the various towns have a mail service of once a week in each direction. He established the northernmost postoffice in the United States and what probably is the northernmost postoffice in the world. This is at Point Barrow, where Rev. Dr. H. Richmond Marsh, the missionary at the little settlement, was appointed postmaster. This place, where the world is published newspaper in the world, is published once a year, will receive the mails once a year by a United States revenue cutter. Heretofore the few natives in the vicinity have had to send for their mail about 700 miles and often much further.

California Via the "Sunshine Route."

If you contemplate a trip to California this fall or winter consult the Chicago, Milwaukee & St. Paul Ry. Beginning Tuesday, Oct. 15th, and every Tuesday thereafter during the season, a high class Pullman tourist sleeping car will leave St. Paul and Minneapolis, running through to Los Angeles without change, arriving at Los Angeles, Saturday morning, four days.

The line is via the celebrated C. M. & St. P., "Hedrick Route" to Kansas City, thence over the A. T. & S. F., making the most popular and interesting route to the South Pacific Coast.

This service includes the "personally conducted" feature west of the Missouri River—a special conductor accompanies each car whose duty it is to carefully look after the wants of each individual passenger.

Write for the cheapest rates and for copy of the "Sunshine" folder, containing full particulars of this famous route.

"A HELPING HAND."

Is Gladly Extended by a Brainerd Citizen.

There are many enthusiastic citizens in Brainerd prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Moses Derocher, of 127 Seventh street south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort, to say the least. My husband bought me a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely, and corrected a disorder of the kidneys which accompanied the backache."

Price 50 cents a box by the McFadden Drug Co., H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name Doan's and take no substitute.

Proposals For Bids.

Sealed proposals will be received for the finishing of a room in the basement in the Lincoln school building on Sixth street, up to and including Thursday, Oct. 17th, at 8 p. m. Specifications can be seen at Mons Mahlum's lumber office at the corner of Eighth and Laurel streets, where bids are to be received. Committee reserves the right to reject any or all bids.
